Foam Roll Stability-Spend a half hour using the foam roller as a stability challenge. There is a great deal of core work involved in simple balancing and stretching.

Chair Yoga- A gentle practice in which postures are performed while seated in a chair. Class moves at a slower pace to focus on individuals' needs & ranges of motion. An ideal format for the older adult or anyone with balance concerns.

Hatha Yoga- A traditional yoga class where you will move your body slowly and deliberately into different poses that challenge your strength and flexibility, while at the same time focusing on relaxation and mindfulness.

Hatha Flow- Perform continuous movements from one pose to the next without a break in between, allowing for smooth, blended movements similar to vinyasa but not as vigorous.

Gentle Flex- Experience gentle active range of motion exercises that increase flexibility and strengthen at the same time. An ideal format for the older adult.

Gentle Yoga- Moves at a slower pace to focus on individuals' needs & ranges of motion. An ideal format for the older adult or anyone looking for restorative practice.

Intermediate Yoga- This yoga class combines breath & movement, proper alignment & pose endurance in a flowing style of yoga. Previous yoga experience recommended.

Pilates Mat-All levels Learn the traditional core strengthening exercises created by Joseph Pilates. Pilates will help strengthen your core, hips, and lower back.

Pilates Mat + - The first 40-45 minutes of the class are a fairly standard, if simplified Pilates Mat sequence. After a 5min. break, class reconvenes to attack the more ambitious Pilates mat exercises for 10-15 minutes. It's highly recommended that the first part of the class is done before part two, as part one prepares the body for the greater challenges.

Pi-Fusion - A unique practice, combining contemporary pilates movements with exercises using lighter weights to help sculpt & strengthen. Each workout will focus on utilizing your core to help ensure you're working your whole body. Modifications & progressions in every class to ensure everyone can join where ever you're at in your fitness.

Qigong- A centuries-old system of coordinated body postures, movements, breathing, and meditation used to facilitate optimal health and spirituality. Class will utilize standing exercises that promote mobility and flexibility throughout the joints to create suppleness and youthful vitality throughout the body.

Tai Chi- Class involves a series of movements performed in a slow gentle way. Focus on breathing and body awareness in this slow moving form of meditation.

Vinyasa Yoga- A style of flowing yoga characterized by connecting poses using rhythmic, efficient, & fluid transitions. *Previous yoga experience recommended.*

Yin Yoga- Target deep tissues in passive, mostly floor poses that are held 3-5 minutes. Like a mini-meditation that allows the muscles to soften & move closer to the bone.

Yin Yang Yoga- A blend of slow & focused Hatha yoga movements balanced with the deep stretches/longer holds of Yin Yoga. Strengthen, heat up then stretch and cool down.

Yoga Sculpt- A quick flowing full body yoga class using light weights, vinyasa and cardio bursts. Enjoy upbeat music & a faster pace. Yoga experience recommended, not required.
